

ANDREA ROBLES DÁVILA

Design Engineer

España | arodav.com | +34 644 58 70 59 | hi@arodav.com

4+ years bridging design and engineering. I build and scale design systems, from tokens to accessible, production-ready components, and ship them myself, working directly in the codebase .

EXPERIENCIA PROFESIONAL

ODILO – Design Engineer · April 2026 – Present | Spain (Remote)

Own the architecture of the Design System. Define token structure, components, and accessibility standards, ensuring correct implementation across Figma Dev Mode and code in Storybook/Angular. Make technical decisions on how the system scales and is maintained, and implement agentic AI workflows across code and design, reducing delivery times and technical debt.

ODILO – Product Designer · July 2022 – March 2026 | Spain (Remote)

Owner of design for the Archive & Preservation products: research, prototyping, UI, and handoff; coordination of a small team and stakeholders.

Pakatnamú – Web Designer & Marketing Lead · January 2020 – March 2022 | Peru (Remote)

Over S/ 88,000 raised for projects. UX/UI design and marketing for a cultural crowdfunding platform, optimizing conversion and community engagement.

Peruke – Designer & Marketing Assistant · January 2020 – January 2022 | Peru (Remote)

Music branding, web, and campaigns; vendor coordination and basic analytics to support digital growth.

Arodav – Web, Graphic & Branding Design (Freelance) · 2018 – 2021 | Peru (Remote)

Designed and developed projects for 10+ clients (music, restaurants, e-commerce, social) with accessible, maintainable websites, plus branding for consistent brand identity.

EDUCATION

Universitat Oberta de Catalunya (UOC) – Master's Degree in Web Application and Site Development

September 2024 – July 2026 | Official degree

EOI (Spain's School of Industrial Organisation) – Front-End Web Development and Design Certification

March – June 2022 | 380.5 hours | Official Spanish certification

Universidad Ricardo Palma (URP) – Bachelor's Degree in Marketing and Business Administration

2014 – 2019 | Lima, Peru

Platzi – Online School of Product Design, Web Development, and Artificial Intelligence

2023 – Present | Continuing education | 600+ course hours, 30+ courses, 10 certificates

ACHIEVEMENTS & VOLUNTEERING

Leftherian – 2017 ASEP Hackathon Winners: First Blockchain-based Intellectual Property platform in Latin America.

Second Chance – Translation & Interpretation (January 2020): Spanish-English translation to facilitate communication between volunteers and communities in vulnerable areas. Organized by the European Union.

La Nueva Semilla – Tech Leadership & Musician (2014 – 2021): Represented the country in cultural festivals and gatherings, volunteer music teacher for children. Created digital assets and led cultural management initiatives.

SKILLS & INTERESTS

Technical: Design Systems, HTML and CSS/SASS, Responsive/Performance web, Figma libraries, prototyping, UX writing, handoff, web design and development, UX/UI, accessibility (WCAG 2.2 AA, ARIA), microinteractions.

Complementary: TypeScript/Angular, Product thinking, Generative and assistive AI, branding.

Tools: Figma (Make, Dev Mode, FigJam, MCP), Framer, Cursor, Jira/Confluence, Adobe Creative Cloud, Affinity, Git/GitHub/Bitbucket, Visual Studio Code, Codex (OpenAI), Netlify, Storybook, Postman/Swagger.

Languages: Spanish (Native), English C1, Portuguese B1.

Interests: Music production (Ableton Live), Ergonomics, Content creation & filmmaking, playlist curation, reading, art, and journaling.
